Solar Solutions for remote mining and construction sites. Achieve energy independence anywhere with our Solar Power and ESS, with capacities ranging from 50 kW to 10 MW.

The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and versatile applications like mining, ...

Perfect for long-term rural microgrid systems, solar-powered telecom relay stations, or infrastructure camps. With 60kW solar input and 215kWh storage in a 20ft container, it ...

The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and ...

With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers. ...

Our containerized energy solution offers notable economic and practical advantages: Minimal civil and site work costs, with system setup requiring only open flat ground and no ground penetration

Ranging from 60kW to 240kW peak power output and an average Solar Energy storage of between 180kWh to 540kWh per day. The Containerised Solar Generator is a quickly ...

Perfect for off-grid electrification, temporary engineering power, and backup energy needs--combining portability, efficiency, and reliability in one solution.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar

containers for remote industrial sites in Canada & USA.

Each container is equipped with a photovoltaic array, a battery bank, and a generator -- all custom-sized to meet the specific needs of the customer. With integrated remote monitoring ...

We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, Injection Sites, Wellhead Locations and Related Oil and Gas Service Companies.
