-----

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

The Mobil-Grid (R) is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...

We offer a highly portable container, designed as a shop space, to load portable batteries, to filter water and sell clean water & energy.

It's designed to be foldable, integrated for fast deployment anywhere. Just lay the track, pull it gently, and the solar panels will be deployed. Start working efficiently, keeping up ...

While traditional stationary solar power systems are normally cumbersome to install and difficult to relocate, folding PV containers make ...

The outer surface of the container is equipped with foldable photovoltaic panels, which can be folded up when not in use to reduce volume and weight for easy transportation ...

The Mobil-Grid (R) is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

The outer surface of the container is equipped with foldable photovoltaic panels, which can be folded up when

not in use to reduce ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions ...
