-----

With the concept of modular design, it can be flexibly configured into 60kW, 80kW, 100kW and 120kW and other power outputs to meet the requirements of charging EVs with different ...

The integrated photovoltaic storage and charging cabinet is a car charging product with high integration, integrated photovoltaic storage and charging, intelligent power distribution, ...

In a word, our 60KW mobile energy storage EV charging pile combines functionality, convenience and reliability, aiming to be a great helper for your electric vehicle ...

New DC pile power level in 2016-2019 Source: China Electric Vehicle Charging Technology and Industry Alliance, independent research and drawing by iResearch Institute.

The 60kW DC Charging Pile, developed by Zhejiang Changan New Energy Technology Co., Ltd., is an innovative and efficient solution for fast charging electric vehicles (EVs).

In a word, our 60KW mobile energy storage EV charging pile combines functionality, convenience and reliability, aiming to be a great ...

The 60kw/90kw integrated DC charging pile integrates the charging pile, charging interface, human-computer interaction interface, communication, billing, and other parts into a whole.

The 60kW single-gun smart charging pile is suitable for various electric vehicle charging scenarios, such as public parking lots, shopping centers, residential communities, highway ...

The 60kW intelligent and high-efficient DC charging pile is mainly suitable for low-power charging scenarios. The module adopts the full filling glue process, which has strong environmental ...

The Extreme Leap Series 60kW/80kW DC Integrated Charging Pile provides comprehensive safety with automatic shutdown features and overload protection, ensuring worry-free charging.

Operating at an input rating of 400v 3ph 125A, this charging pile offers a maximum output power of 60KW within a voltage range of 200V-750V DC. With features including overcurrent ...
