The focus of the paper is to identify for the first time the most adequate energy storage systems (ESS) applicable in the central or bulk generation of the electricity sector in Albania.

Just last month, a major developer announced plans for Europe's first urban "storage skyscraper" - a 22-story building where every other floor houses battery containers.

With the COSMOS high-pressure system from heiserTEC, we offer a modular solution that is used worldwide in energy projects, research facilities, and industrial applications.
