What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

What is arc quenching switchgear?

Arc Quenching Switchgear minimizes or eliminates damage to switchgear in the event of an arc fault, protecting valuable switchgear assets from arc flash damage. It is designed to reduce peak fault current by at least 25% and peak stress on upstream equipment by at least 44% when compared to a bolted fault device.

Why should a switchgear arc fault be detected?

Arc faults endanger your staff and threaten the permanent electrical power supply. A fault in the switchgear assembly can soon be an expensive business. So, it is ideal if arc faults are detected and automatically quenched as soon as they arise. Staff enjoy optimum protection and the system is back in operation in the shortest possible time.

What is a type 2 arc-resistant switchgear?

For low-voltage switchgear, this rating is also applicable to the secondary door. Type 2 arc-resistant ratings in accordance with IEEE standard C37.20.7 provide for arc-resistant protection around the perimeter of the switchgear with the doors closed.

To help businesses reduce the risk of costly plant shutdowns, Eaton offers a comprehensive range of solutions such as Diagnose and Arcon.

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power ...

Constantly changing demands on the market, diverse tenders - how can arc fault protection be best integrated in the design of your switchgear assembly? We are at your side for the ...

Eaton Arc Quenching Switchgear provides enhanced safety, advanced equipment protection and minimized downtime in the event of an arc flash. It reduces incident energy to below 1.2 ...

Care Labs Denmark provides expert arc flash risk assessments and prevention strategies to enhance safety, reduce costs, protect equipment, ...

Investing in top-quality Arc Flash Clothing in Denmark is imperative for ensuring the safety of workers, and our extensive range is meticulously crafted with cutting-edge materials and ...

Care Labs Denmark provides expert arc flash risk assessments and prevention strategies to enhance safety, reduce costs, protect equipment, and meet compliance standards.

Point Eight Power offers a full line of low- and medium-voltage arc-resistant switchgear to help combat the over 30,000 arc flash incidents that occur each year - causing thousands of ...

Arc flash testing and analysis are available in all major cities, including Copenhagen, Aarhus, Odense, and Aalborg. Care Labs Denmark offers certified arc flash analysis and risk mitigation ...

The AQ 100 series of medium-voltage arc flash devices is built to meet the growing demands in MV switchgear and controlgear applications.

Point Eight Power offers a full line of low- and medium-voltage arc-resistant switchgear to help combat the over 30,000 arc flash incidents that occur ...

Market Forecast By Equipment (Arc Flash Detection System, Arc Flash Control System, Personal Protective Equipment), By End-Users (Utilities, Manufacturing and Processing, Oil & Gas, ...
