What is an electrical arc flash?

An electrical arc flash is more severe with higher voltages & higher Ka ratings of the equipment (switchgear) substation. The greater the flash, the greater the severity of the radiation exposed to the operator. It is imperative to get the correct grading of the Nomex Flash suit to ensure the necessary protection against radiation of the Arc flash.

What is an arc flash jacket?

Arc Flash Jacket designed to interface with Arc Flash Hood. An electrical arc flash is more severe with higher voltages & higher fault level ratings of the equipment (switchgear) substation. The greater the flash, the greater the severity of the radiation exposed to the operator.

What are arc flash suits?

Arc Flash Suits are designed to provide protection from arc flash heat exposures. Arc flash suits are designed to protect the electrical technician from heat and to reduce or minimize total burn injury. This helps to provide the user with extra seconds of protection to help escape possible secondary explosions or fires in the work area.

What is arc save Flash suit?

LLT Arc Save Flash suit consists of the following products - ARC Flash Hood, ARC Flash Jacket, ARC Trousers, ARC Flash gloves and protective boots.
