Advanced energy storage solutions, including thermal energy storage (TES) systems and phase change materials (PCMs), have been explored to enhance the efficiency ...

A new 2-MW data center in the heart of Bangkok's business district could be powered by regasified liquid natural gas (LNG) to create district cooling energy in its version of a lower ...

The first urban district cooling center and power distribution system will be located in One Bangkok, Thailand's largest private sector property development site of 16.7 hectares at ...

A new 2-MW data center in the heart of Bangkok's business district could be powered by regasified liquid natural gas (LNG) to create district cooling ...

SolaX is proud to introduce the TRENE Liquid-Cooling Energy Storage System, a groundbreaking solution that combines 125kW of power output with a high-capacity 261kWh energy reserve, ...

Competitive Strategy: This report crafts a strong competitive strategy tailored to the APAC liquid cooling market for stationary battery energy storage system (BESS).

A prime mixed-use development in Bangkok aimed to achieve one of the best chiller plant efficiencies in Thailand, targeting an energy consumption rate lower than 0.55 kW/RT. This ...

Huawei Digital Power is set to unveil its cutting-edge Hybrid-Cooling Energy Storage System (ESS) at the C& I Future Energy Summit Asia Pacific 2025 in Bangkok, Thailand.

materials (PCMs), have been ...

It will design, build, own and operate the centralised cooling system to provide reliable and energy-efficient chilled water to the network of buildings within the complex and ...

Huawei Digital Power is set to unveil its cutting-edge Hybrid-Cooling Energy Storage System (ESS) at the C& I Future Energy Summit ...

This showcase highlights the advanced cooling technologies already in use at the facility, which has recently achieved certification in ...
