---

Spain has awarded more than EUR818 million ($956.3 million) in European Union funding to 126 energy storage projects totaling 2.2 GW of power and 9.4 GWh of capacity.

Together, these assets position Naturgy as a leader in advanced storage deployment across Spain. Beyond capacity numbers, the real impact lies in how these projects ...

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long ...

Naturgy is promoting seven new battery storage projects, bringing its portfolio in Spain to 16 installations. The new batteries add up to 100 MW of power and 359 MWh of ...

Spain has launched an ambitious EUR700 million (around $796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage.

Iberdrola Espana secures funding to expand battery, thermal, and pumped storage projects across Spain, boosting renewable energy and resilience.

Renewable generation is now joined by storage projects, and Spain occupies a prominent place as the country with the second largest projected capacity for stand-alone ...

The companies signed a solar-plus-storage power purchase agreement (PPA) for a 170MWp solar, 400MWh battery energy storage system (BESS) project in Extremadura, ...

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support.

Battery energy storage projects in Spain
