Uzbekistan has launched its first utility-scale "solar + storage" project -- the Nur Bukhara Photovoltaic and Battery Energy Storage Project -- in the Bukhara region, developed ...

The European Bank for Reconstruction and Development (EBRD) is providing a financing package of US\$142m (EUR121m) for two special-purpose vehicles (SPVs) developing ...

"The new solar plant with a battery energy storage system will not just boost the uptake of renewable energy in the country, but also help stabilize and strengthen existing ...

Voltalia has commenced construction of the Artemisya hybrid energy cluster in Uzbekistan, covering battery storage and the first phase of wind capacity. The initial phase ...

Uzbekistan's first utility-scale solar and battery storage facility, the Nur Bukhara PV and BESS project has been officially inaugurated by President Shavkat Mirziyoyev.

The initial phase will add 100-MW battery energy storage system (BESS) with 200 MWh of capacity and a first 100-MW tranche of wind power, with commercial operations ...

Voltalia has begun construction of its Artemisya "strategic cluster" comprising wind, energy storage and solar PV in Uzbekistan, Central Asia.

The project is aligned with the government's renewable energy plan, supported by the EBRD, which targets 25 GW of solar and wind capacity by 2030. Once operational, the ...

Uzbekistan's President inaugurates country's first utility-scale solar and battery storage project with Masdar,
