---

The projects were selected to pilot innovative, broadly replicable energy storage use cases and business models with multiple value streams, with the goal of priming Massachusetts for ...

"Our system solution is ideal for using battery storage to optimize grid energy through peak shaving, lower area electricity costs, and provide a resilient source of backup ...

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage ...

Battery storage systems are becoming increasingly popular in Boston, Massachusetts, offering a range of benefits for homeowners and businesses. These systems store excess energy ...

A rendering of the proposed battery energy storage system by Mission Clean Energy in Blandford.

LS Energy Solutions has completed a battery energy storage system for Citizens Energy Corporation in Greater Boston, integrating a 4.99 MW/15 MWh battery energy storage ...

Using earth-abundant materials and unique chemistry, our solution is safer, lower-cost, and longer-lasting than existing lithium-ion and lead-acid batteries, accelerating the clean ...

Massachusetts is making a big push for batteries -- not the kind you put in a flashlight, but powerful, tractor trailer-sized batteries that store energy for the electric grid. State...

Massachusetts embarks on a bold journey toward energy independence with groundbreaking battery storage projects, fostering innovation and economic growth in the region.
