In March 2024, Atlas Renewable Energy announced it has signed a power purchase agreement (PPA) with Chilean mining giant Codelco for the supply of 375 GWh of energy per ...

Using lithium batteries, BESS Coya's mission is to store the energy produced by the adjacent solar power plant, aiming to strengthen the supply of renewable electricity. This ...

Upon closing of the transaction, Glenfarne's operational and in-construction power assets, including the assets of EnfraGen, will total over 3.1 GW of ...

This cluster integrates bifacial photovoltaic generation and storage technologies, enabling the company to advance its efforts in ...

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS).

There are three approaches to energy storage available in Chile including Carnot Battery (thermal energy storage), battery energy storage systems (BESS), and liquid air ...

The US-based Glenfarne Group has acquired a portfolio of solar PV and co-located battery energy storage system (BESS) assets in Chile from Greece-headquartered firm Metlen ...

The Chinese technology company has launched a comprehensive technical support platform based in Santiago, focused on energy storage solutions and reducing operational ...

This cluster integrates bifacial photovoltaic generation and storage technologies, enabling the company to
