Is solar energy a viable option in Syria?

As the electricity crisis worsens, solar energy is no longer just an option - it has become an unavoidable necessity. Yet the high cost of installing photovoltaic systems has pushed many Syrians to rely on subsidized loans, particularly those provided by the Renewable Energy Support Fund, which offers interest-free financing.

Is Damascus real estate promoting investment in Marota city?

As it turned out, it appeared in an advertisement posted on the page "Damascus Real Estate World" on February 4, 2025, promoting investment in residential apartments and commercial shops within the Marota City project.

Did Siemens buy equipment in Syria before Assad collapsed?

In minute 2 of the video, German-made electronic equipment from Siemens was visible, while later on in minutes 3, 9, and 30, machinery bearing the Mitsubishi Electric logo appeared--clear indications that sanctioned technology had been procured and installed in Syria before the collapse of the Assad regime.

The Middle East and Africa Solar PV Inverters Market is growing at a CAGR of 7.39% over the next 5 years. Omron Corporation, Mitsubishi Electric Corporation, FIMER SpA, ...

Damascus (???? transliteration: Dimashq, also commonly known as al-Sham) is the capital and largest city of Syria. It is thought to be among the oldest continuously inhabited cities in the ...

With power ratings from 1kW to 100kW, our Fronius, SMA, Goodwe, Kostal, Victron and SunGrow single-phase, three-phase and hybrid photovoltaic inverters are suitable for all budgets and all ...
