With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

Our photovoltaic kit NR" 40 XL offers an innovative and mobile solution for self-consumption. Depending on your geographic location, you can produce up to 9350 kWh per year.

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic ...

HighJoule's 200KW Solarfold unit is built for fast deployment in emergencies, large-scale outdoor events, pop-up hospitals, or military forward operating bases. Its foldable design and high ...

The 40ft Foldable Container House with Solar Panels is a modular, mobile housing unit constructed from a 40-foot shipping container. Engineers designed it to fold flat for easy ...

Solar panels on shipping containers offer a versatile and cost-effective solution for harnessing renewable energy, providing sustainable power in various applications. Customization and ...

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 ...

Our fully furnished containers are available in both 20 foot and 40 foot also outfitted with our WaterSecure system, providing you with an off-grid power solution that is both reliable and ...

The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic
