Located near the town of Dekemhare, approximately 40km southeast of the capital, Asmara, the ambitious project encompasses a 30MW solar photovoltaic power station ...

High-powered fast charging technology (Kalmar FastCharge(TM)) offers a realistic way for terminals to electrify their horizontal transportation while maintaining optimum ...

Concentrating solar power plants use sensible thermal energy storage, a mature technology based on molten salts, due to the high storage efficiency (up to 99%).

Port terminals, especially their reefer container yards, face surging power demands. Efficient reefer charging is critical for port sustainability and efficiency, as it helps reduce peak ...

The signed agreements include a deal between Elsewedy Electric and SGTD to develop a 23-megawatt solar power plant with battery storage on a 30-hectare site in Doraleh, ...

Located near the town of Dekemhare, approximately 40km southeast of the capital, Asmara, the ambitious project encompasses a ...

Located on the Red Sea, the Port of Massawa is Eritrea's principal maritime hub and a strategic asset for any import-dependent ...

Installing solar panels or small wind turbines on terminal property helps terminals produce the clean energy they consume: Even 1-2% on-site solar, when scaled, can ...

Port terminals, especially their reefer container yards, face surging power demands. Efficient reefer charging is
