Are our solar panels made in France?

Not all our panels are produced in France (yet). We select the world's best factories based on strict environmental and social criteria. Our panels are certified low-carbon. It's the least we can do. Our panels are built to last: the PV performance is guaranteed 30 years.

Where are our solar panels made?

Since 2010, we have developed our solar innovations at our R&D center in Marseille, France. Not all our panels are produced in France (yet). We select the world's best factories based on strict environmental and social criteria. Our panels are certified low-carbon. It's the least we can do.

Is SunPower a French company?

SunPower Corporation Although SunPower Corporation is an American company by origin, it has a substantial presence in the French solar market. They have established a factory in De Vernejoul, France, thus solidifying their commitment to supporting the country's renewable energy goals.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.

Flexible and furlable, Solar Cloth's flagship technology is easily transportable, does not break (absence of glass), and adapts to all support surfaces while generating little heat.

A list of companies in Lyon that undertake solar panel installation, including rooftop and standalone solar systems. 8 installers based in Lyon are listed below.

EDF Energies Nouvelles Reparties (EDF ENR) is a prominent manufacturer of photovoltaic solar systems in France, overseeing the entire value chain from research and development to the ...
