Discover how Helsinki's 16 kW solar system urban transit hubs slash grid reliance by 70%--featuring heated seats, real-time updates, and USB ports. Winner of the 2025 Nordic ...

Helsinki, the capital of Finland, is known for its commitment to sustainability and environmental responsibility. This comprehensive guide will delve into the various green ...

Discover how Helsinki's 16 kW solar system urban transit hubs slash grid reliance by 70%--featuring heated seats, real-time updates, and USB ...

As other cities look for ways to transition to carbon neutrality, Helsinki's Hot Heart provides a scalable, inspiring model of how to integrate technology, design, and sustainability ...

In Helsinki, adaptation is divided into two time spans: preparation for extreme weather events and longer-term adaptation, which requires changes to the way the city is planned and built.

The Pajamaki Solar System Scale Model is a scale model of the Solar System built in Helsinki and partly in Espoo, Finland in 1992. Its scale is 1:1 000 000 000, i.e. one to one billion, so that ...

In Helsinki, adaptation is divided into two time spans: preparation for extreme weather events and longer-term adaptation, which requires changes to ...

$60^{\circ}13'17''N$ $24^{\circ}51'20''E$ / $60.22139^{\circ}N$ $24.85556^{\circ}E$ The Pajamaki Solar System Scale Model is a scale model of the Solar System built in Helsinki and partly in Espoo, Finland in 1992. Its scale is 1:1 000 000 000, i.e. one to one billion, so that 1 millimeter in the model corresponds to 1 000 kilometers in the actual Solar System. The coordinates given for the model ar...
