BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

2MW battery energy storage system is modular designed, and can be quickly installed. The BESS container can provide you with stable and reliable energy in the long run.

This all-in-one containerized system combines an LFP (LiFePO₄) battery, bi-directional PCS, isolation transformer, fire suppression, air conditioning, and an intelligent Battery Management ...

Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high-performance 500kW Hybrid Inverter. Featuring a modular and ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are CATL brand, whose LFP chemistry packs 1 ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...

Designed to meet the demands of large-scale energy storage, these battery storage containers offer scalability, mobility, and climate resilience--ideal for utilities, industries, and remote ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

Explore containerised battery energy storage (BESS): modular 1 MWh high-voltage lithium container for

High current solar container lithium battery pack

reliable backup, remote & industrial power.

Containers can be placed together to create even larger energy storage banks (2MW with 2, 3MW with 3 etc.) One of the largest energy storage battery systems available! Click here for ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.
