How many solar projects are there in Southeast Asia?

Paris/Singapore - Total, through its affiliate Total Solar Distributed Generation, has added six new solar projects with a total capacity of around 10 megawatts-peak (MWp) to its renewables portfolio in Southeast Asia since October 2019. These distributed generation projects are located in Thailand, the Philippines, Indonesia and Singapore.

Is PV module manufacturing in Southeast Asia under pressure?

Thanks to new data, this edition includes entries such as ICA Solar and United Renewable Energy (URE), reflecting the evolving landscape of PV manufacturing in the region. Despite strong ambitions, PV module manufacturing in Southeast Asia is currently under pressure.

What is the Southeast Asia Solar supply chain map?

This edition of the Southeast Asia Solar Supply Chain Map provides a detailed snapshot of current realities and future ambitions, as the region navigates complex trade, investment, and production challenges.

What's new in the 2025 Southeast Asia Solar supply chain map?

The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics.

The Southeast Asia solar photovoltaic glass market includes company profiles of 10 key players who are actively engaged in producing various Southeast Asia Solar Photovoltaic Glass.

Manufacturer Directory: Access up-to-date information on solar manufacturers operating in each region. Stay ahead of the curve by understanding the key players in each market.

Summary: Southeast Asia has emerged as a critical hub for photovoltaic (PV) glass production, with over 20 operational factories as of 2024. This article explores the region's manufacturing ...

The market insights series features maps for the region - showcasing existing and future solar module
