-----

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

The first BESS projects are being implemented in Latvia at its own production sites, starting with the "smaller-scale" BESS at the ...

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

Supercapacitors, a bridge between traditional capacitors and batteries, have gained significant attention due to their exceptional power density and rapid charge-discharge ...

Latvian state-owned utility Latvenergo AS has decided to invest in a new business area in its portfolio with plans to install 250 MW/500 MWh of battery energy storage capacity ...

Secure Latvia's power grid with Rolls-Royce's large-scale battery storage, syncing Baltic energy with Europe by 2025.

The first BESS projects are being implemented in Latvia at its own production sites, starting with the "smaller-scale" BESS at the Latvenergo AS CHPP-1 gas-fired power ...

Latvian state-owned utility Latvenergo AS has decided to invest in a new business area in its portfolio with plans to install 250 ...

Latvia, a small but dynamic player in the energy storage sector, has emerged as a hub for advanced
