This double crisis - educational inequality and environmental constraints - demands solutions that are both practical and sustainable. Enter the solar powered shipping ...

Electricity costs plummeted overnight, and this rural boarding school found itself at the forefront of a quiet revolution sweeping across ...

Samsung has placed solar-powered containers in parts of Africa that have no electricity and installed cutting-edge technology to give children a quality education. ...

We produce the classroom converted from a Shipping Container. Made in South Africa and shipped to all African Countries for social responsibility, CSI and Government projects.

Electricity costs plummeted overnight, and this rural boarding school found itself at the forefront of a quiet revolution sweeping across Kenya's educational landscape--one that's ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi ...

Over half of Nairobi's low-income suburbs lack reliable electricity, handicapping learning and daily life. African SCENE pinpointed schools in Kibera and Kangemi slums to pilot solar installations ...

Dubbed Solarcontainer, SolarCont has devised a photovoltaic power plant developed as a mobile power generator with collapsible photovoltaic modules. The unfolded ...
