-----

Once operational, the Omburu BESS will allow NamPower to manage energy supply and demand more effectively. The system will perform energy arbitrage, displace costly ...

As the sun dips below the Kalahari dunes each evening, this lithium-ion and flow battery hybrid system kicks into gear, storing enough daytime solar energy to power 90,000 ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

The shipment, according to the national utility NamPower, arrived on Tuesday at the port of Walvis Bay, and includes eight Power Conversion System (PCS) containers that ...

If you're here, chances are you're a renewable energy enthusiast, a project developer eyeing Namibia's sunny landscapes, or a policymaker seeking reliable grid solutions. Windhoek ...

Namibia is not yet self-sufficient, but the combination of grid-scale storage and transmission expansion is laying the foundation for a more resilient and renewable-driven ...

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy ...

Surplus electricity from RE generation as well as cheaper electricity imports from the Southern African Power Pool (SAPP) can be stored in the BESS. The stored energy could supply ...

As southern Africa's first mover in grid-scale storage, Namibia's not just solving its own energy puzzle.
