---

The Z-folded flexible solar array consists of a flexible substrate, Z-folded solar panels, and large support trusses, achieving a specific power of approximately 50-70 W/kg.

It offers a universal solution for applications requiring light, flexible and compact solar panels. Because they are more effective than standard glass solar panels, you will get higher output ...

It offers a universal solution for applications with a requirement for lightweight, flexible and compact solar panels. Because of being more efficient than standard glass solar panels you'll ...

Thermonordic &gt;For Outside&gt;Flexible Solar Panels&gt;FSP For Small Houses - Technical Hippy 40 gives you 40W of power everywhere you want. It can be combined with our power packs ...

The Thermonordic solar panels, in combination with the relative power packs, allows you to enjoy your independence, providing you with the sufficient energy for the lighting and the recharge of ...

Nordic offers compact yet powerful solar modules, the details of which are designed for the demanding conditions at sea. All modules have a special arrangement of the cells for better ...

The SUNBEAMsystem Nordic 104 W flexible solar panel has a maximum capacity of 104 watts and uses effective Sunpower cells. These cells guarantee the highest yield with a minimum ...

The NORDIC series from SUNBEAMSYSTEM was specially developed for use in northern climates. It offers a universal solution for applications with a requirement for lightweight, ...

Flexible solar panel Sunbeam Nordic 104W Junction Box, 104 W, monocrystalline, 12 V, 1060 x 540 mm

The Nordic Series has been developed by SUNBEAMsystem for use in its region of origin: the northern latitudes. It offers a universal solution for applications with a requirement for ...

It offers a universal solution for applications with a requirement for lightweight, flexible and compact solar panels. Because of being more ...
