-----

Beyond contracting delays, the sector faces structural hurdles related to supply chains, manufacturing and financing. India's installed BESS capacity remains limited, with ...

Your choices (get off work, finish work, leave work) will all work fine finishing the question about a normal working day. I don't see much difference in formality, if any.

India's energy transformation is entering its most disruptive phase. While solar tariffs made headlines a decade ago, a silent revolution is now underway in battery energy ...

Hello everyone, I learned that the phrasal verb "to cut someone off" can be used meaning "to stop having a close or friendly relationship with someone". My question is: Was ...

Plummeting costs of solar and battery storage in India along with technological improvements are opening new opportunities for clean and low-cost power generation.

"The company wants to dispose off the equipment." Is this sentence correct. I am confused whether it is dispose of or dispose off as I see a lot of sentences that use dispose off.

Grid upgrades and storage are national priorities. Emerging technologies like green hydrogen offer solutions. Domestic manufacturing incentives will reduce import dependence.

It's not too common though. The two most common formulations are: I get off work at 5. and I get off of work at 5. At least where I live, "get off from" is used, but not as ...

The storage costs reflected by the latest auction prices in India have profound implications for the costs of a

flat block of power - i.e., a solar+storage system can supply a steady stream of ...

Hello everyone! In a meeting I have heard people say "I need to drop off the meeting" and "I need to drop off to another meeting", and I wonder if the use of drop off is ...

Three initiatives, regulations or policies related to decentralised energy storage have been updated or introduced by the relevant agencies at the national or state level.

Battery Energy Storage System (BESS) is emerging as reliable and efficient technology for addressing the energy transition requirements of key industries such as ...
