Cemex and Synhelion report prospective scaling of a high-temperature process to industrially-viable levels, where solar energy ...

Cemex and Synhelion report prospective scaling of a high-temperature process to industrially-viable levels, where solar energy supplants fossil fuel combustion. This marks a ...

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components.

A typical cement plant requires a cement price of \$130/ton for a 10% IRR, on capex costs of \$200/Tpa, energy intensity of 1,000 kWh/ton and CO2 ...

Individual tax payment types Don't use Direct Pay if your spouse's name was listed first on a jointly filed return but you were assessed a separate amount for that tax year.

An innovative and efficient solar power plant solution has been developed for cement factories. On an annual basis, solar PV systems in cement plants may save 22,941 tonnes of CO2.

The IRS uses third party payment processors for payments by debit and credit card. It's safe and secure; your information is used solely to process your payment.
