The FRBm4 in 3+N-pole configuration is available as AC and A type.

Who makes RCBOs?

At RS, we offer a wide range of RCBOs from trusted brands such as Eaton, Europa, ABB, and Schneider Electric, ensuring high-quality solutions for every application. Our selection also includes Better World products, designed with sustainability in mind, featuring eco-friendly materials, extended life cycles, and reduced environmental impact.

What is an RCBO & how does it work?

RCBOs protect electrical circuits from overcurrent, caused by overloads or short circuits and from earth leakage faults. This dual protection helps prevent electric shocks, fires, and damage to equipment. RCBOs are commonly installed in consumer units and distribution boards across residential, commercial, and industrial environments.

Which type of circuit breaker detects a fault current?

Type AC: This type only reliably detects AC fault currents. Eaton's high quality standard guarantee comprehensive personal- and equipment protection by combining the functionalities of a residual current circuit breaker with those of a miniature circuit breaker.
