Repair Service: Replacing the LR arm axis was honestly a relatively easy repair. After replacing the arm, and powering up the gimbal does its vertical and horizontal tests, but ...

I'm replacing the left front leg. I can't get the spring loading to work. Leg just flops around.

RC not connected to mobile device after replacing button board Mick P Dec 13, 2024 M

I'm just starting to get into electronics as a hobby and I was wondering if someone here could help me understand the process of replacing damaged microcontrollers. With the ...

Hi everyone, My DJI RC with the integrated screen, bought with my Mini Pro 3 two years ago, is now showing its age. Even when charged to 100%, it drops to 80% after a few ...

You can try replacing it. I'd use a 2A standard diode. The leads and body look too fat for a simple 1N4001 to 1N4007 range. Also, are you sure it's the problem? Is this the switch ...

Just by replacing vision sensors It will not work . Professional calibration by specific tool is required . Contact any drone repair or service in your area I just wait, official ...

My AC to 12vDC adapter was blown and after opened the case I found that the coil was blown to pieces by pieces. Since I don't know what is that coil looks like

I have put back together the entire gimbal already, and I would much rather superglue a plastic piece to the motor than fully disassembling the gimbal again and replacing ...
