FelicityESS uses our innovative technology and high-quality products to help Romania and other countries achieve energy transformation and jointly promote a green future.

Romania's energy storage initiatives are deeply embedded in a broader European movement toward a renewable-dominated grid, reflecting a shared commitment to sustainability.

FelicityESS uses our innovative technology and high-quality products to help Romania and other countries achieve energy ...

GSL ENERGY is your reliable long-term partner in the renewable energy transition. Start your electricity storage project in Romania. Ready to bring stable, clean new energy to ...

You know, when we talk about Europe's energy revolution, most people immediately think of Germany or Scandinavia. But here's the twist - Romania's battery storage sector grew 240% ...

This article discusses how grid-scale battery storage is revolutionizing the U.S. power sector by addressing the challenges of integrating intermittent renewable energy sources.

This article discusses how grid-scale battery storage is revolutionizing the U.S. power sector by addressing the challenges of ...

The energy used comes exclusively from renewable sources, being supplied by the PPC Renewables Romania photovoltaic park. The storage system has a capacity of 250 kWh.
