Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

Independent power producer Africa REN has officially commissioned the Walo Storage project in Bokhol, Dagana department, northern Senegal. This marks the first solar PV ...

By combining photovoltaic generation with lithium-ion batteries, the facility delivers 13 MW of power for frequency support and emergency supply. This technology not only ...

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

"I would like to thank our partners in Senegal, especially Senelec, for their unwavering support since our first investments in 2015. The on-time commissioning of Walo ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery ...

The installation features monocrystalline solar modules mounted on single-axis tracking systems paired with string inverters, alongside lithium-ion battery storage.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power
