-----

With construction costs estimated at more than EUR26 million, the plan is designed to utilise over 65,000 solar panels capable of generating some 55,000 megawatt-hours of electricity annually ...

With a capacity of 6.3 MW, the power plant will generate 7.2 GWh of green energy annually, covering up to 92% of the brewery's electricity consumption. The newly operating ...

Noteworthy is the investment in a EUR30 million solar park near Sturovo in southern Slovakia, designed to produce 30 megawatts daily, ...

Located on the site of a former agricultural enterprise, the 14-hectare plant will have a capacity of 11.3 megawatts. Together, the two ...

Estimates from the Slovak Association of the Photovoltaic Industry (SAPI) indicate that Slovakia likely added around 220 MW of solar capacity in 2023. The figures, based on ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is ...

Estimates from the Slovak Association of the Photovoltaic Industry (SAPI) indicate that Slovakia likely added around 220 MW of ...

Voltalia, a French renewable energy investor, is set to significantly impact Slovakia's solar energy landscape with a substantial ...

Voltalia, a French renewable energy investor, is set to significantly impact Slovakia's solar energy landscape with a substantial investment. The company plans to ...

Noteworthy is the investment in a EUR30 million solar park near Sturovo in southern Slovakia, designed to produce 30 megawatts daily, sufficient to support several factories.

Slovakia is taking significant steps to expand its solar energy infrastructure through the construction of large-scale solar parks. The Slovak Electricity Transmission ...

Located on the site of a former agricultural enterprise, the 14-hectare plant will have a capacity of 11.3 megawatts. Together, the two facilities are expected to deliver more ...
