---

Our solar energy and panel conveyor systems are designed to integrate with robotics and other automation equipment. A multitude of custom devices ...

Equipped with special vacuum suction cups to securely pick up modules from the conveyor belt. Robot automatically sorts the modules into designated pallets. Offers sorting configurations for ...

Explore Montech's sorting and distribution conveyor system, optimized for efficient handling of individual solar cells or wafers.

In solar module production, various materials such as silicon wafers, backsheets, glass and metal frames must be transported. Conveyor belts, roller conveyors, cranes and ...

The production of a solar module requires many manufacturing steps. The task was to develop a universal conveying design by which glass and solar panels can be transported from one ...

Our solar energy and panel conveyor systems are designed to integrate with robotics and other automation equipment. A multitude of custom devices and mechanisms are available to gently ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions and lifting points of a standard 20f high ...

For the folding and unfolding of the photovoltaic panels, the module works electrically using an automatic conveyor system, activated with a click of a button. the ...

Our engineers can assist with developing a solution that will solve your unique application challenges, eliminate contact between products, and deliver the ROI you expect ...

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions ...

Browse solar panel handling conveyors by Material Flow. Engineered for safety, efficiency, & minimal contact to protect delicate solar panels during transport.
