-----

The 2.4-GW Sunstone Solar project, poised to become the largest solar and storage initiative in the US, has received final approval from the Oregon Energy Facility Siting Council, with ...

As we approach Q4 2025, the project's second phase adds 2MW floating solar + hydrogen electrolyzers. Because when your entire country could disappear, you learn to store energy ...

The South Tarawa Renewable Energy Project (STREP-the project), ADB's first in Kiribati's energy sector, will finance climate-resilient solar photovoltaic generation, a battery energy ...

That's Kiribati's reality - 33 coral atolls facing energy poverty and climate threats simultaneously. With 70% of urban households experiencing daily blackouts during peak hours, the urgency ...

That's Kiribati's reality - until now. The Kiribati Energy Storage Project is flipping the script, combining solar arrays with massive battery banks to create a hybrid power system.

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

Located in the Dedza district of Malawi near the town of Golomoti, the 20MWac solar PV and 5MW/10MWh energy storage project is set to become a leading project in sub-Saharan Africa ...

Looking to address challenges at the local level, the roadmap recommends solar desalination in South Tarawa; a combination of wind power, PV and battery storage for Kiritimati Island; and ...
