-----

Built by ContourGlobal - a KKR Group company - Quillagua is a solar power plant with a nominal capacity of 221 MWp and equipped with a 1.2 GWh battery storage system, ...

Ever wondered how a desert could power an entire city at night? Look no further than South America, where energy storage plants are rewriting the rules of renewable energy.

In operation for 38 years and run by EPEC, the facility operates in three modes - generation, pumped storage, and synchronous ...

Built by ContourGlobal - a KKR Group company - Quillagua is a solar power plant with a nominal capacity of 221 MWp and equipped ...

One of the largest battery storage projects in South America is being built in the Chilean Atacama desert. It complements the existing ...

As Colbun's first energy storage system, it will allow the power generation company to integrate additional renewable energy capacity and achieve net-zero emissions. It is also Wartsila's first ...

The 116 MW of batteries that, together with Fluence, will form part of this project, make it the largest battery storage system in Latin America, capable of supplying energy to the grid for 5 ...

Deep in the heart of Argentina, the Rio Grande pumped-storage hydro power plant stands as the largest facility of its kind in South America. For nearly four decades, this ...

In operation for 38 years and run by EPEC, the facility operates in three modes - generation, pumped storage,
