What is a HindlePower Battery Cabinet?

HindlePower's Battery Cabinet is designed to maximize DC system performance and battery life, saving YOU time and money. The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built-in intelligence, will safely house any combination of batteries, chargers, DC distribution, and/or other ancillary equipment.

What is a battery cabinet?

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace of mind. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is an outdoor NEMA 3R Battery Cabinet?

Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment. This becomes a great alternative for substations with limited interior space allowing for consolidation of your DC power system. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is an outdoor Battery Cabinet?

HindlePower's Outdoor Battery Cabinet is constructed of extremely durable injected foam panels that achieve a level of thermal performance not previously seen in traditional battery cabinets. Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F.

These cabinets are tested and labeled to UL-1778 when shipped fully assembled with batteries. The CK-10 features an exclusive design for ease of installation, maintenance and multiple ...

The DC cabinet is mainly to aggregate and share the current distribution of each battery rack to achieve the charge and discharge management function of each battery rack. The DC cabinet ...

The EPIC Series Battery Cabinet is designed to maximize DC system performance and battery life, saving you

time and money. This NEMA 3R modular enclosure, with built in intelligence, ...

Using a Unistrut design, the battery rack is sized to your exact battery model, allowing for a perfect fit. The rack is part of the main structure of the cabinet, creating a sturdier build and ...

The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built in intelligence, will safely house any combination of batteries, chargers, DC distribution, and/or ...

From Pole-Mount Solutions to Very Large Battery Farms, Hardcraft's State of the Art Battery Enclosures with Optional Climate and Hydrogen Control Features Lead the Industry for ...

The DC cabinet is mainly to aggregate and share the current distribution of each battery rack to achieve the charge and discharge management ...

SBS designs and builds custom DC enclosures for battery systems and/or chargers. A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or 12) or outdoor ...

The battery cabinets are available in 5 different mechanical dimensions, are able to contain various combination of Batteries, up to maximum 63 blocks, connected in series and parallel, ...

The system in an industrial grade 16U cabinet has options for floor or wall mounting, and will be typically fitted with the necessary infrastructure to grow from 1.8kW/55Ah to 5.4kW/110Ah.

For NEMA 3R, and when environmental options are provided, the battery cabinet will maintain a steady internal temperature of 77o F (+/- 3?F) through an external ambient temperature of ...
