Does Switzerland (Schweiz) require inverter adjustment?

Switzerland (Schweiz) (690V L- 50HZ L) Inverter AC power is limited; requires inverter adjustment. For details refer to the application note Turkey (690V L-L) 50HZ Harmonics to 100th level are required.

What is inverter country setting?

Inverter country setting: to what country setting the inverter should be configured in order to comply with the local grid requirements. Some countries have a submenu that should be used; sub-entries are indicated with the following symbol: -> SE11400H-US approved only for installations with no LVRT (low voltage ride through) requirement.
