Where is Sweden's largest battery energy Storage solution located?

This is why we are now building Sweden's largest Battery Energy Storage Solution (BESS) of 10 MW, which will be located in Grums, in western Sweden. The main function of the system is to better balance the national grid networks.

What is a battery energy Storage solution?

The first investment is Sweden's largest Battery Energy Storage Solution (BESS) that enables more renewable energy in the electricity system and a better electricity network balance. Electricity is a prerequisite for societal development and achieving climate policy goals.

Why should you choose ebess battery container?

It can be easily integrated into the power grid, providing a seamless and efficient energy storage solution. With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy storage solution that is easily expandable as energy demands increase.
