---

Sumitomo Electric Industries has followed up the US launch of its newest vanadium redox flow battery (VRFB) technology, announcing a deal in Japan. The company ...

Earlier this year, Sumitomo released a new vanadium redox flow battery (VRFB) suitable for a variety of long-duration configurations. The system applies "newly developed ...

Sumitomo Electric vanadium redox flow battery and SEMSA have been selected to power the Kurokiyama Solar Plant in Japan.

Explore how Vanadium Redox Flow Batteries (VRFBs) offer a sustainable, safe, and recyclable alternative to lithium-ion technology. With up to 99.2% recyclability and ...

Sumitomo Electric has launched its first vanadium redox flow battery (VRFB) system at a community solar microgrid in southern Japan. A ceremony took place on April 22 to ...

Hokkaido, Japan, has deployed one of the world's largest flow battery systems to store renewable energy from wind and solar. ...

Designed for a 20-year lifecycle, Sumitomo Electric Industries, Ltd.'s Vanadium Flow Battery System brings high energy efficiency to large-scale energy storage systems. The vanadium ...

Explore how Vanadium Redox Flow Batteries (VRFBs) offer a sustainable, safe, and recyclable alternative to lithium-ion technology. ...

Earlier this year, Sumitomo released a new vanadium redox flow battery (VRFB) suitable for a variety of long-duration configurations. ...

Japanese manufacturer Sumitomo Electric has released a new vanadium redox flow battery (VRFB) suitable for a variety of long-duration ...

Japanese manufacturer Sumitomo Electric has released a new vanadium redox flow battery (VRFB) suitable for a variety of long-duration configurations. Unveiled at Energy ...

Sumitomo Electric has inaugurated a vanadium redox flow battery (VRFB) system at a community solar microgrid in southern Japan.
