Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

When will Tunisia get a photovoltaic power plant?

The government will await proposals until April 30, 2025. The capacity will be awarded under the second round of the country's AO-01-2022 call for tenders, through which Tunisia aims to find contractors for 1,700 MW of photovoltaic (PV) projects under its national renewable energy development programme.

The Tunisian Ministry of Industry, Mines and Energy has launched a tender for the development of 200 MW of solar PV capacity under the concession regime in Tunisia.

In October 2024, Tunisia launched a new tender to procure 200 MW of large-scale solar, with submissions due by Jan. 15, 2025.

Tunisia recently announced a call for tenders for the construction and operation of 200 MW of photovoltaic solar capacity. This project is part of ...
