-----

Foldable containers have the potential to enhance the cost efficiency of the logistics industry and improve the problem of space allocation at seaports.

Focusing on the most popular container in the market today (40-foot), HCI has continually evolved the main structure and design to ...

"Whether it is saving cost or space, our containers create a safe and more efficient operating and storage system at a port, terminal ...

Focusing on the most popular container in the market today (40-foot), HCI has continually evolved the main structure and design to create greater and greater efficiencies -- ...

Compact Container Systems (CCS) has launched the SeaFold HC 40" container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, ...

Operational Flexibility: These containers can be quickly folded and unfolded, allowing for rapid deployment in various shipping scenarios, which enhances efficiency in busy ...

Compact Container Systems (CCS) has launched the SeaFold HC 40" container, the world's first five-in-one, foldable shipping ...

"Whether it is saving cost or space, our containers create a safe and more efficient operating and storage system at a port, terminal or depot. "This is especially important during the high ...

The presented foldable container passed the tests for international certifications ISO 1496-1 and CSC required
