Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Can a Honeywell energy storage system be integrated into a solar farm?

First announced at the annual U.S.-Vietnam Energy Security Dialogue, the project plans to use a Honeywell energy storage system integrated into a 50-MWp solar farm operated by AMI Khanh Hoa. AMI AC Renewables is a joint venture between ACEN and AMI Renewables.

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.

Is solar energy the right choice for Vietnam?

"Solar energy is the right choice for Vietnam because it's proven technology that can be quickly and readily deployed, even in challenging sites," she adds. Vietnam's transition to renewable energy comes as the country's electricity needs continue to increase due to strong economic growth projected at 5-7% per annum over the coming years.
