Here's a hint: My absolute largest repository contains only images of various formats, it's an "artwork" repo of icons which I use in various apps. Yet, GitHub reports the size as 0.

The OP was asking "Array.size () vs Array.length". From the previous discussions, it was make clear, that the "size" Function is not part of standard JavaScript but implemented ...

In this case, depending upon what your use case is, you might be better off using int (or long long) for s1 and s2. There are some functions in C/POSIX that could/should use size_t, but don't ...

These high-efficiency units typically measure between 2.2-2.4 meters in length and 1.1-1.3 meters in width, with most models maintaining a slim profile of 35-40mm thickness. Imagine trying to ...

In several C++ examples I see a use of the type size_t where I would have used a simple int. What's the difference, and why size_t should be better?

550W (540-560W): Common in commercial and industrial (C& I) projects. With dimensions of around 2.25-2.30 m x 1.13-1.14 m and a weight of 26-32 kg, they help reduce ...

When considering solar energy, the dimensions of a 550 watt solar panel play a crucial role in your installation. These panels typically measure ...

The approach basically builds on other work where people experimentally identified the size of primitives and typical Java objects and then apply that knowledge to a ...

550 Watt Solar panels" range of prices, dimensions, sizes, voltage output, specifications datasheets Ranges of

What is the size of the 550w solar panel model

Source: <https://prawnikpabianice.pl/Thu-01-Apr-2021-10565.html>

Website: <https://prawnikpabianice.pl>

information Voltage: 31.5V ~ 66.9V ...

As you know, matlab deals mainly with matrices. So, the size function gives you the dimension of a matrix depending on how you use it. If you say `size(A)`, it ...

The goal here is to get to the average solar panel size by wattage. You can find typical dimensions of 100W, 150W, 170W, 200W, 200W, 220W, ...

If the size of the int is that important one can use `int16_t`, `int32_t` and `int64_t` (need the `iostream` include for that if I remember correctly). What's nice about this that `int64_t` should not have ...
