This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

The first floating solars for the Hollandse Kust Noord (HKN) offshore solar farm have arrived at the Port of Amsterdam, set for installation at the Dutch CrossWind HKN ...

A globally interconnected solar-wind power system can meet future electricity demand while lowering costs, enhancing resilience, and supporting a stable, sustainable transition to net ...

A globally interconnected solar-wind power system can meet future electricity demand while lowering costs, enhancing resilience, and supporting a stable, sustainable ...

The project has many first-offs, including being the first wind farm in the world with an offshore combination of battery storage and round-trip green hydrogen produced from ...

What is described as the "world's first" offshore solar farm integrated within a wind farm has completed assembly at the Port of Amsterdam and is ready for deployment at the ...

What is described as the "world's first" offshore solar farm integrated within a wind farm has completed assembly at the Port of ...

The Port of Amsterdam has received the first floating solar units for an offshore solar farm. These solar units will soon integrate with ...

The Port of Amsterdam has received the first floating solar units for an offshore solar farm. These solar units
