The country's revised national recovery and resilience plan (NECP) draft envisages a further 50 MW of BESS to be built by 2030 to complement its transmission grid ...

The European Bank for Reconstruction and Development (EBRD) will invest EUR16.8 million (EUR17.6 million) in a direct equity stake in a project to develop a 60MW BESS and virtual ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time ...

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

Central to BESS functionality is the interplay between power capacity in megawatts (MW) and energy capacity in megawatt-hours (MWh). This guide explores these elements, ...

By the end of 2025, Southeast Europe has between 400 and 500 megawatts of operational BESS power capacity and roughly 800 to 1,100 megawatt-hours of stored energy ...

The Boksic solar power plant project includes a battery energy storage system, BESS, with a capacity of 70.8 MWh.

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the ...

Developer NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and

Zagreb Energy Storage Power Station Capacity BESS
